1. About

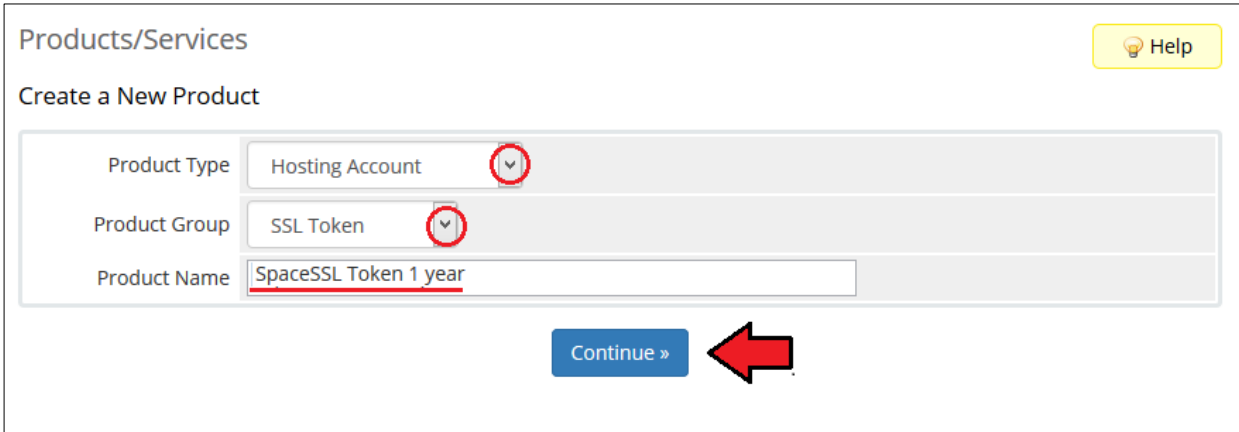

Certum SSL Tokens For WHMCS have been created to assist end-customers who are not highly competent in complicated process of token generation. Furthermore, the module also minimize the efforts of administrators who no longer need to support their clients in that process.

2. Certum Tokens For WHMCS

2.1. Installation & Configuration

In order to install **Certum SSLTokens For WHMCS** follow these steps:

1. Download **Certum SSL Tokens For WHMCS** package, unpack it and drop into a correct WHMCS directory.
2. Now you have to configure a new product. Proceed to *Setup* → *Products/Services* → *Products/Services*.
3. Create a new group for the product, name it, choose template and assign Payment Gateways. Save changes.
4. Now add a new product in this group. Choose previously created Product Group and name
